

## ROTATION TARGET SYSTEM Model TP2

The rotation target system model „TP 2“ is constructed for the shooting with the olympic rapid fire pistol as well as with the standard and sports pistol. The system complies with the rules of the ISSF and the DSB and is available in static or movable configuration. 5 hard foamboards ensure a wobblefree target stand after each rotation due to a special construction. The system contains serially the control unit “TP2” which can drive several rotation target systems and which also can be used for the rotation target system for air pistol 10m.

### Technical details:

- System made of high quality dur-aluminium
- Scratch-resistant and weather-proof lacquer
- System runs with three-phase motor 0,37kW, 400V
- The torque generated by the gear motor is transferred by an eccentric crank to the driven rod
- Rotary time <0,2 sec.
- Hard-wired programmes:
  - precision 300 sec.
  - Duel (5x3/7 sec.)
  - Rapid fire (8, 6 and 4 sec.)
  - Standard (150, 20 and 10 sec.)
- Variable free programme
- Delivery with remote control with supply line 5m and control cable 33m
- CEE-plug-in, 5phase, 16A

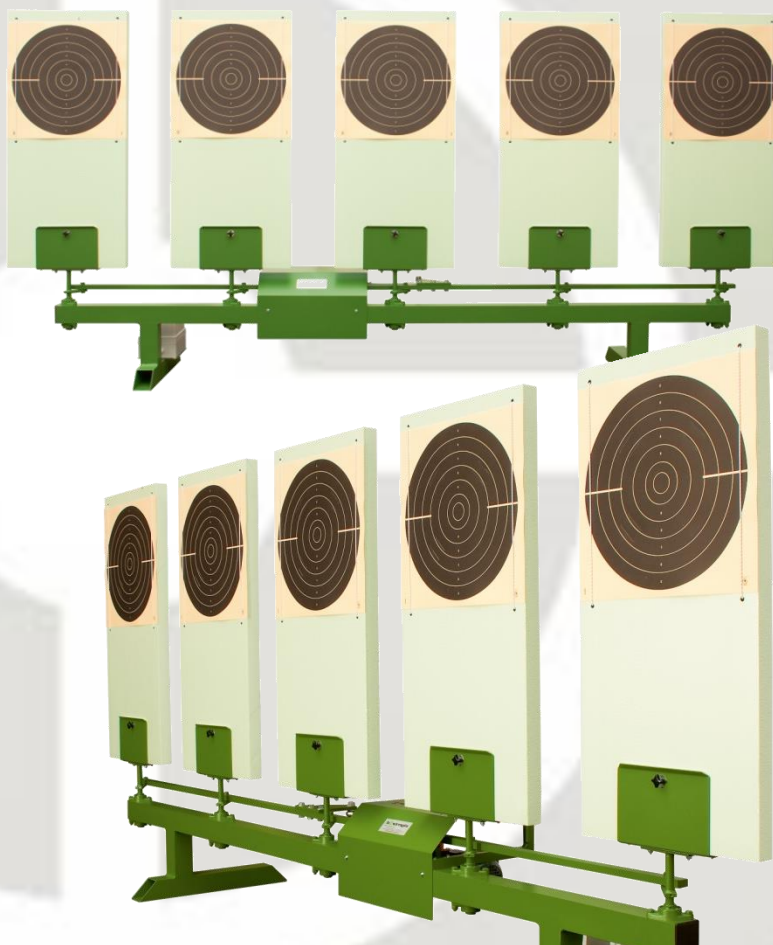

### Optional:

- ✓System available in movable configuration
- ✓Customer-specific number of targets and measurements
- ✓Available made of galvanized steel
- ✓Radio remote control
- ✓40m control cable

## Premium class shooting range systems

Since more than 40 years the name „Eigenbrod“ stands for high-quality shooting range systems which are designed for a long lifetime. Our systems are produced carefully by hand to customer’s specifications from enhanced materials. Our systems are maintenance-free even at continuous utilization. All this assures a perfect functioning even under the most adverse conditions.

So the shooter can concentrate on what’s most important: shooting!

SHOOTING RANGE SYSTEMS FOR SPORTS, HUNTING, POLICE AND MILITARY
